Assigment 2: pg 3 Kelly Nobles 2/24/26

Question 5: μ + σ of value option

V	$f(v)$	$V \cdot f(V)$		$V^2 \cdot f(v)$
1	0.15	0.15		0.15
2	0.13	0.26		0.52
3	0.10	0.30	sum	0.90
4	0.10	0.40		1.60
5	0.05	0.25		1.25
				4.42

$\boxed{\mu = \$ 1.36}$ mean

✓ Q5

$Var(V) = 4.42 - 1.36^2 = 2.5704$

$\sigma = \sqrt{2.5704} = \boxed{1.60 = \sigma}$ std. dev.
